THE FOUR SEASONS

The Academy Of Classical Ballet - CALIFORNIA proudly presents: "The Four Seasons" - an original ballet inspired by Antonio Vivaldi's sublime score. Come with us as we take you a journey through the Four Seasons led by various iconic characters.

We visit a cherry blossom at Spring surrounded by bumble bees and butterflies. During the Summer, we experience a rainstorm and swim under the sea with a sea nymph. In the Autumn, we visit a farmer and her harvest and in the Winter we play around in the snow with the red cardinal. Come and travel with us on all of these wonderful adventures as we take you through the beauty of the Four Seasons!

PETER & THE WOLF

We are proud to present this classic tale of a young boy, Peter who sneaks out into meadow and the dark woods, only to find himself face-to-face with the Big Bad Wolf. Accompanying him on this adventure are his animal friends: the Duck, the Bird, and his grandfathers' mischievous cat.

Written by Sergei Prokofiev in 1936, this story is a favorite for audiences young and old alike. We humbly invite you to our ballet interpretation of this timeless story.

These two wonderful ballets combined into one show will be sure to please all ages and we can't wait to perform for you. We'll see you there!
