Workshop Summer Intensive

The Summer Program at The Academy of Classical Ballet provides a comprehensive experience for students. In addition to intensive training in ballet technique, pointe, strength and conditioning, and classical repertory, participants engage in dance education classes covering choreography and composition, costume and set design, as well as anatomy and dance history.

The summer program also welcomes guest teachers and includes other dance styles such as Modern, Jazz, and Contemporary. This allows students to immerse themselves in different movement techniques to achieve a well-rounded dance training.

The highlight of the program is the opportunity for students to craft their own performance, providing them with a hands-on experience of the entire production process. The program concludes with an in-studio showcase, where students proudly present their final creation, showcasing their newfound skills and creativity.
